Extraction units

DUSTY ZIRKON

Fine dust extractor

Order-No.: 24500

- ideal for extraction of zirconium dioxide during CAD/CAM applications
- air filter for the finest dust (0,3 µ)
- 45 litres container volume
- low noise emission 59 db(A)
- adjustable extraction power
- suited for clean room operation
- Push & Clean for quick and easy filter cleaning
- extra socket for tools, automatic on / off

Technical data

Line voltage	230 V / 50 – 60 Hz
Current consumption	1.100 W
Socket	2.400 W (auto)
Height	750 mm
Width	360 mm
Depth	560 mm
Weight	11 kg
Dust collection	99,99 % (class H)
Working sound level	59 dB(A)
Container volume	45 l
Filter volume	13 l
Housing	synthetic material
