LED workstation light
Simply determine your time of day yourself!

Whether in the laboratory, in the practice or in the office: a well-radiated workplace protects you and your eyes from premature fatigue. The REITEL LED workstation light with elegant design, generates a pleasant homogeneous workplace illumination. Moreover, it has a remarkably high light efficiency! By use of a dimmer the LED lighting system is infinitely adjustability in brightness and color temperature from warm white to cool white, enabling the user to store / recall up to three light settings. Cool light (approx. 6,500 K – similar to daylight) enhances concentration and prevents fatigue. It clearly accentuates outlines and details, for example in testing stations and quality control. Warm light (approx. 3,000 K) generates well-being and reduces reflections on glossy parts. By redirecting light rays from more than 100,000 micro lenses uncomfortable brightness is avoided, achieving homogeneous light distribution. Shadows on working areas are basically nonexistent even when partial light obstruction occurs. Thus, common multi shadows in LED lighting are prevented. The sleek aluminium design and high-quality synthetic parts combine functional industrial standards and appealing office design. The prism area is easy to clean due to its smooth surface. The LED workstation light is available in two different sizes, for wall assembly or including an articulated arm with five adjusting screws for direct installation at the desk.

### LED WORKSTATION LIGHT MINI
- **Wall assembly set**

#### Technical Data – LED WORKSTATION LIGHT MINI

- **Operating voltage / Power consumption**: 48 V / 24 W
- **Current consumption**: 0.5 A
- **Dimensions (h x w x d)**: 15 x 304 x 198 mm
- **Light color**: white, adjustable
- **Angle of radiation**: approx. 60°
- **Illumination 0.5 m**: 2510 Lux
- **Illumination 1.0 m**: 664 Lux
- **Illumination 1.5 m**: 320 Lux
- **Housing material**: aluminium

#### Order-No. – LED WORKSTATION LIGHT MINI

- wall assembly: Order-No. 19100000
- table installation: Order-No. 19101000
- alternative attachment: Order-No. 29171000

### LED WORKSTATION LIGHT COMFORT
- **Wall assembly set**

#### Technical Data – LED WORKSTATION LIGHT COMFORT

- **Operating voltage / Power consumption**: 48 V / 48 W
- **Current consumption**: 1.0 A
- **Dimensions (h x w x d)**: 15 x 564 x 198 mm
- **Light color**: white, adjustable
- **Angle of radiation**: approx. 60°
- **Illumination 0.5 m**: 4650 Lux
- **Illumination 1.0 m**: 1322 Lux
- **Illumination 1.5 m**: 617 Lux
- **Housing material**: aluminium

#### Order-No. – LED WORKSTATION LIGHT COMFORT

- wall assembly: Order-No. 19110000
- table installation: Order-No. 19111000
- alternative attachment: Order-No. 29171000
